## BUYERS' GUIDE

### Consult It Before Buying

---

Leading Salt Lake City Business Houses

☐ Looking at the list of all those who sell—the modern way of buying goods.

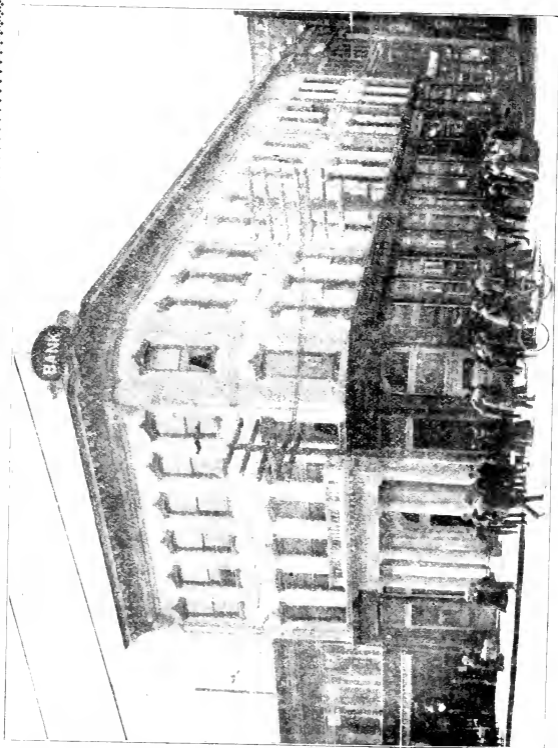

☐ The man who buys without looking at the list of those who sell does himself a gross injustice.

☐ Using the classified directory of the whole City is like going to the market place; it brings to view each and every individual in any and all lines of trade, and here the intelligent buyer may select the best of everything at the lowest price.

☐ The habit of using the classified directory will save large sums of money and will always secure the best in any line. It is the modern, up-to-date method of getting what you want.

☐ To the advertiser the City Directory is the most economical and effective method of saying what he has to say to the entire population.

## INTRODUCTORY

1429837

The approval which preceding issues of the Salt Lake City Directory have met with, has been flattering to us and has stimulated our efforts to produce as perfect a work as the nature of the case will admit of. No work of this kind can be absolutely perfect, and each succeeding issue suggests improvements which we take pleasure in adding. We have been constantly mindful of the fact that Salt Lake City is the Metropolis of the Inter-Mountain Region—a city not only of great possibilities, but of great actualities. We realize that in publishing its annual directory we have been in a measure identified with the record of its growth and progress, and to a certain extent, responsible for an accurate and truthful exhibit in this regard. We have tried to meet this responsibility with increased effort from year to year. How well we have succeeded this year, the following pages will show. We have carefully verified and revised every item of information contained in this volume, and trust that the many hours of labor spent in so doing will be rewarded by the Public's approval and future valuable assistance.

This volume contains by actual count 58,115 names—an increase of 1942 over our 1908 volume. This does not include the names of firms or corporations, removals or death notices. That Salt Lake City has grown steadily in population during the past year is hereby shown beyond a doubt. Using the multiple of 2 (the lowest used by any directory publisher), we estimate the present population of Salt Lake City and the suburbs to be 116,230. We have for several years past made a complete and accurate canvass of all the suburbs, including Ft. Douglas, Murray, Sandy, West Jordan and Garfield, where we always obtain hundreds of names which will be found in the columns of this work, and which make it much more valuable as a book of reference than it would be, were we to leave out the suburbs and present to the Public a directory containing the names of our citizens living within the city limits only. When these facts are taken into consideration, one can readily account for any difference there may be between the figures of the United States so-called "official" census and those of our estimate as to the exact population.

In conclusion we desire to say, we will consider it a special favor if, when any errors or omissions are found in our work, the party finding such will notify us at once. We are always ready and willing to rectify as far as possible any such faults, and notice to us will insure all parties concerned against a repetition of same in our next issue. Thanking our patrons for their liberal patronage, and the Public in general for their assistance, we are,

Respectfully,

R. L. POLK & CO., Publishers.

# R. L. POLK & CO'S Salt Lake City Directory

VOL. 1909 XVIII.

## STREET AND AVENUE GUIDE

The arrangement of this Street and Avenue Guide is copyrighted annually by R. L. Polk & Co., of Utah. All Rights Reserved.

### EXPLANATORY.

The street system of Salt Lake City is unique and original. The Temple Block is taken as the center. The beginning of all regular streets is the southeast corner of the Temple Block (Brigham Young Monument). The streets running north, east, south and west of this block are North Temple, Main Street, South Temple and West Temple streets, respectively. The next streets north, east, south and west parallel with the above-named streets are First North, State street, First South and First West, respectively, and so on in regular order of numbering to the limits of the city, all the eight-rod streets.

The narrower system of streets in the northeastern section of the city are named as follows: Commencing on the north side of South Temple street, the first street running north (east of State street), is A street, the second parallel therewith, B street, the next C, and so on to the eastern limits of the city. The same system of streets at right angles with the above are numbered: The first street north and parallel with South Temple street being First Avenue, the next Second Avenue, and so on to the northern limits of the city.

### NUMBERING OF HOUSES.

In blocks of 660 feet there is allowed 100 numbers to each side of the block. Blocks of 330 feet have fifty numbers to each side. Center street and other streets running northerly and southerly in Plat "E," have one number to each rod of frontage.

### RE-NAMING OF STREETS.

In 1907 the City Council approved the plan submitted by the City Engineer to re-name a number of the streets. In re-naming the streets the following rules were observed.

All streets less than 132 feet running east and west are called avenues.

All duplicate names of streets are abolished.

All combinations of streets having different names from the original street are made to correspond in name.

All streets on the North Bench running east and west are called avenues.

**RATES OF POSTAGE—(Domestic.)****FIRST CLASS MATTER.**

On letters and other matter, wholly or partly in writing, except the writing specially authorized to be placed upon matter of other classes, and on matter sealed or otherwise closed against inspection—2 cents an ounce or fraction thereof.

On postal cards—1 cent each, the price for which they are sold.

On private mailing cards (post cards) conforming to the requirements of Postal Laws and Regulations—1 cent each.

On "drop letters"—2 cents an ounce or fraction thereof when mailed at letter-carrier post offices, or at offices which are not letter-carrier offices if rural free delivery has been established and the persons addressed can be served by rural carrier; and 1 cent for each ounce or fraction thereof, not sealed, when mailed at offices where letter-carrier service is not established, or at offices where the patrons cannot be served by rural free-delivery carriers.

Letters mailed at a postoffice for delivery to patrons thereof by star route carrier and those deposited in boxes along a star route or rural free delivery route are subject to postage at the rate of two cents an ounce or fraction thereof.

Letters prepaid 1 cent received by a postmaster, under cover (through the mails), with postage prepaid on the bulk package at the letter rate cannot be distributed for local delivery or transmission in the mails. Each letter must be prepaid at the regular first-class rate.

A letter which—after a proper effort has been made to deliver it—is returned to the sender, may, not be remailed without a new prepayment of postage, and it should be inclosed in a new envelope, to secure prompt transmission.

**SECOND-CLASS MATTER.**

**WHEN MAILED BY THE PUBLIC.**—The rate of postage on newspapers and periodical publications of the second class, when sent by others than the publisher thereof, or a news agent, is 1 cent for each 4 ounces, or fractional part thereof, on each separately addressed copy or package of unaddressed copies, to be prepaid by stamps affixed.

**NOTE.**—There is no such rate of postage as 4 cents a pound.

**WHEN MAILED BY PUBLISHERS OR NEWS AGENTS.**—Copies of publications admitted to the second class of mail matter when mailed by the publishers thereof to subscribers and as sample copies within the limitations of Postal Laws and Regulations, are subject to postage at the rate of 1 cent a pound, to be prepaid in money on the bulk weight of all copies, except as provided by Postal Laws and Regulations.

**THIRD-CLASS MATTER.**

The rate of postage on mail matter of the third class is 1 cent for each two ounces or fraction thereof, on each individually addressed piece or parcel, prepaid by stamps affixed.

**NOTE.**—There is no such rate of postage as 8 cents a pound.

**FOURTH CLASS MATTER.**

The rate of postage on mail matter of the fourth class is 1 cent an ounce or fraction thereof, on each individually addressed piece or parcel, prepaid by stamps affixed.

**MONEY ORDERS.**

**Note.**—There is no such rate of postage as 16 cents a pound.

**Money Orders**—Payable in the United States (which includes Guam, Hawaii, Porto Rico and Tutuila, Samoa); or payable in Bahamas, Bermuda, British Guiana, British Honduras, Canada, Canal Zone (Isthmus of Panama), Cuba, Newfoundland, at the United States Postal Agency at Shanghai (China), in the Philippine Islands, or the following islands in the West Indies: Antigua, Barbados, Dominica, Grenada, Jamaica, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Trinidad and Tobago, and Virgin Islands.
